About AARC's Neonatal-Pediatric Specialist Course. AARC's Neonatal-Pediatric Specialist course is a comprehensive educational activity developed to enhance the critical skills necessary for respiratory therapists who work in both neonatal and pediatric acute care environments.

Objectives: The transport of neonatal and pediatric patients to tertiary care facilities for specialized care demands monitoring the quality of care delivered during transport and its impact on patient outcomes. In 2011, pediatric transport teams in Ohio met to identify quality indicators permitting comparisons among programs. However, no set of national consensus quality metrics exists for ...

OBJECTIVE: To understand how neonatal and pediatric critical care physicians balance and integrate the interests of the child and family in decisions about life-sustaining treatments. METHODS: Semistructured interviews were conducted with 22 physicians from neonatal, pediatric, and cardiothoracic intensive care units in a single quaternary care pediatric hospital.

Neonatal And Pediatric Critical Care Coding Guidelines

Oxford follows the AMA guidelines with respect to the reporting of pediatric and neonatal critical and intensive care codes 99468-99476 and 99477-99480. When services considered inclusive are reported on the same day with a pediatric and neonatal critical or intensive care code by the Same Group Physician and/or other Health Care
